

# Multiplication and Division

## Worksheet-5

**BE PATIENT AND TAKE SMALL STEPS TO SUCCESS**

1 2 3 4

1. A library has 35 shelves. Each shelf has 455 books. Find the number of books in the library.

- A. 15925                      B. 15625                      C. 14825                      D. 13965
- 

2. A farm has 437 rows of mango trees with 108 trees in each row. How many mango trees are there in the farm?

- A. 48196                      B. 57301                      C. 47196                      D. 52305
- 

3. John and Davis had the same amount of money. After John bought a box of pencils for ₹ 24, Davis has 3 times the amount of money left with John. How much did they have in all at first?

- A. ₹36                      B. ₹48                      C. ₹72                      D. ₹84
- 

4. Vihang divided a certain number by 10 instead of multiplying it by 10 and got 500 as a result. What would the result have been if he had not made that mistake?

- A. 50000                      B. 5000                      C. 500                      D. 50
- 

5. There are 8956 bags in a shop. The number of black bags is twice the number of pink bags. The remaining 3010 bags are orange. How many black bags are there in the shop when their number is rounded to the nearest hundred?

- A. 3964                      B. 3900                      C. 3960                      D. 4000
- 

6. What is the product of face values of 2 and 8 in 542891?

- A. 2000                      B. 10                      C. 2                      D. 16
- 

7. The sum of Jatin's age and his younger brother's age is 26. The product of their ages is 144. What is Jatin's age?

- A. 15 years                      B. 18 years                      C. 20 years                      D. 12 years
- 

8. Identify the product of 684 and 43 rounded off to the nearest 100.

- A. 30600                      B. 29400                      C. 29500                      D. 29000
-

9. Study the given number sentences.

$$\square \times \triangle = 27$$
$$\triangle \div \square = 3$$

If these number sentences are true, which of the following may be correct?

A.  $\square = 9, \triangle = 3$

B.  $\square = 3, \triangle = 9$

C.  $\square = 6, \triangle = 18$

D.  $\square = 5, \triangle = 15$

---

10. What is the product of all the numbers on a telephone keypad?

A. 158480

B. 159450

C. 159480

D. 0

---
